T-FORCE

Cutting-edge design accommodated with innovative and reliable features, T-Force is catered for professional & recreational divers looking for an excellent front adjustable jacket.

T-Force is providing maximum comfort but guaranteeing durability. The BCD is built with highly abrasion **500 denier Cordura**. Featuring the latest Scubapro's innovative design, **T-Comfort Backpack**. An ultra thick embossed padding that fit all divers' sizes and offering unsurpassed comfort. The Hydro-dynamic cut and foam padding on cummerbund and shoulder interior for extra comfort.

Incorporating the compact and high performance **Balanced Power Inflator (BPI)**, it allows you to deflates at the touch of button featuring special soft touch, ergonomically shaped buttons for good grip and easy one hand operation with gloves.

Divers can perfect balance underwater with Scubapro's **patented Integrated Weight pocket system** and **trim rear pockets**. The removable weight pouch can hold up to 5.5kg and secured fastex buckles. The expandable pockets, located at the both sides of tank, hold up to 2.5kg of counter weight for optimum diver's trim.

Large teeth zipper pocket for sturdier and more reliable closure and use. Expandable pockets provide huge storage capacity.

For additional safety and versatility the shoulder straps feature heavy duty buckles to ensure easy use. **Six stainless steel D-rings**. T-Force comes with Scubapro's proprietary **One Hand Operation Steel Super-Cinch tank band system** which allows for both easy adjustment and a secure grip on the tank.
